About
NAHN

The National Association of Hispanic Nurses is a nonprofit organization devoted to ensuring high-quality health care delivery to Hispanic communities and promoting professional excellence among bilingual and bicultural nurses.

Since 1975, NAHN has been the nation's leading professional society for Latino nurses. With more than 40 chapters and approximately 2,000 members, NAHN brings together nurses, health care professionals, administrators, students, and academic leaders from across the US and beyond.
We promote the delivery of safe, high-quality health care to Latino communities and individuals

The Hispanic community has been disproportionally affected by COVID-19, with almost three times as many cases per head among Latinos than among whites, and a hospitalization rate 4.6 times higher. But the specific challenges faced by Latinos in terms of health outcomes and healthcare access long predate the pandemic. *(Source: The Brookings Institute)*

---

We work to recruit additional Latinos into the nursing profession

Nearly 1 in 5 people in the United States are Hispanic, according to the recent census, but a 2017 analysis found that out of 3.3 million registered nurses, only 5.7 percent were Latinos; 73.5 percent were white. *(Source: Bureau of Labor Statistics)*
